Member Biography

As a leader at dovetail solutions, Ashley Clendenin is Vice President, overseeing business development, strategy, and fostering client and community relationships. With 13+ years in leadership and business development, she is driven by a passion for consulting and connecting people. Her values shape her career at dovetail. Previously, as a Director at Bisnow, Ashley led growth in Denver and Phoenix, gaining valuable insights into commercial real estate and its impact on cities. Beyond work, she cherishes outdoor activities, time with her son, Red, and traveling.

**Ashley Clendenin,
Vice President**

Why did you join CSBR?

To actively participate, acquire knowledge, foster connections, and make meaningful contributions to the aerospace community in Colorado. Both as a firm and as individuals, we've aspired to integrate into this industry, recognizing its leadership in Colorado's sectors and its substantial contributions to our state. Our objective is to offer a fresh perspective to the organization and contribute to raising awareness for CSBR.

How has your involvement supported you in your personal and professional development?

On a personal level, understanding aerospace's impact on our state, country, and the world is crucial to me. Despite its perceived complexity, CSBR stands out with diverse perspectives and intentional engagement. Professionally, dovetail solutions has the tools to enhance awareness. Fostering relationships and connecting individuals, guided by trust and transparency, is at our core. Excited to bring that commitment to CSBR!

Tell us about a success story of connecting with another CSBR Member?

My experience in connecting with fellow CSBR members took an unconventional path, originating before my official membership. Kyle Ellington, a CSBR advocate, reached out to me to organize one of the inaugural events in Colorado, bridging the commercial real estate and aerospace communities. The success of the event was attributed to Kyle's expertise and his affiliation with CSBR.
